

Containership-Info

August 2010, 32nd week

+ + + Vessel Photo Update Log + + +

Selected New Photos at Containership-Info

On the next few pages you will find a selection of container ship photos recently uploaded to **www.containership-info.com**.

Please note that the pictures in the pdf-file are reduced in size and saved as low-quality jpg files. In order to view the actual pictures as well as vessel data sheets and additional photos of the ships displayed here, please go to our website's vessel galleries.

The editors of containership-info are always on the lookout for quality photos of vessels that are still without a photo on the respective vessel page. We greatly appreciate your image contributions. Please read our "Note to Contributors" pdf file to find out what type of photograph we need and how you can perhaps help. The file can be obtained from containership-info's "miscellaneous downloads" section.

We gratefully acknowledge the help of the photographers who supplied images for this week's picture upload.

The photo copyright of the below pictures is held by the original photographers, not necessarily by the editors of containership-info.

The Hitachi-built BRITAIN STAR of 1978 seen in the Suez Canal.
The 950-teu ship has since been broken up.

(c) Boris Paulien

Claus-Peter Offen's SAN FERNANDO seen on passage through the
Kiel Canal in Germany. The ship presently trades for CMA CGM.

Evergreen Marine's 7,000 teu vessel EVER SHINE is seen at Hamburg's Burchardkai Terminal.

The open-top feeder ship BARMBEK in the Kiel Canal. She is one of four identical container vessel built by the German Meyerwerft.

This newly-added shot dates from 2007, when MSC ROSARIA was built. Here, she is christened at Daewoo Mangalia, Romania.
